CAPABILITY STATEMENT

- **PCB Design & Manufacturing:** We offer end-to-end PCB design and manufacturing services, from initial concept to final product.
- **Prototyping:** Rapid prototyping services to help bring your designs to life quickly.
- **High-Volume Production:** Scalable production capabilities to handle high-volume orders efficiently.
- **Multi-Layer PCBs:** Expertise in manufacturing complex multi-layer PCBs along with rigid flex circuits.
- **Surface Mount Technology (SMT):** Advanced SMT capabilities for high precision and reliability.
- 5 production lines with on-the-fly inspection.
- **Through-Hole Technology:** Reliable through-hole PCB manufacturing for robust applications.
- **Testing:** Accurate testing for performance validation. SPEA 8-flying probe for component level testing.
- Functional testing available.
- **X-RAY and 3D AOI:** X-ray images for all leadless parts and 3D Automated Optical Inspection for all boards.

INDUSTRIES SERVED

- Aerospace & Defense
- Medical Devices
- Consumer Electronics
- Telecommunications
- Telecommunications
- Industrial Equipment
- Local State Infrastructure
- IOT

QUALITY & CERTIFICATIONS

- **ISO 9001:2015 Certified:** Commitment to quality management and continuous improvement.
- **IPC-A-610E Certified:** Adherence to international standards for electronic assemblies.
- **RoHS Compliance:** Compliance with Restriction of Hazardous Substances directive for environmental safety.
- **ITAR Registered and NIST Compliant:** Protect our nations security and advance American foreign policy interests.
- **MBE Certified:** Minority Business Enterprise certified by the NMSDC Council.

WHY CHOOSE US

- **Expertise:** Highly skilled team with extensive industry knowledge.
- **Innovation:** Continuous investment in the latest technology and equipment.
- **Customer Focus:** Dedicated to providing exceptional customer service and support.
- **Quality Assurance:** Rigorous quality control processes to ensure top-notch products.
- **Competitive Pricing:** Offering cost-effective solutions without compromising on quality.
